

Wipes & Cleaners

Employers shall provide handwashing facilities. When handwashing facilities are not feasible, employers shall provide either an appropriate antiseptic hand cleaner in conjunction with clean cloth/paper towels or antiseptic towelettes.

Visit www.osha.gov for complete details and regulation requirements.

Kimtech® Prep Wipers For Bleach Disinfectants and Sanitizers

Open bucket of chemicals with textile rags are hazardous and unsanitary. Use the Wettask® System with Kimtech prep* wipers to create a safer, more efficient surface sanitizing system. Designed to be compatible with quat disinfectants, sanitizers and bleach. Maintain target disinfectant concentration and provide more uniform application than cotton rags and microfiber cloths. Simply add chemicals to the Wettask® bucket with secure lid. Wipers dispense one at a time, and because it is an enclosed system, it helps avoid cross contamination of the wipers and cleaning solution while reducing exposure to vapors and splash. Buckets can be prepared ahead of time and are very easy to transport. Free disposable bucket in every case.
