MARKEL Mat Bases and Aluminum Frames

Now You Have the Freedom to Place Your Adhesive Floor Mats Anywhere...Anytime!

- Mat Bases and Frames are designed to allow users of adhesive floor mats to mount their mats to a moveable base instead of being limited to securing the mat directly onto the floor.
- Bases and Frames permit the installation of mats in areas where it is not normally possible to adhere mats directly to the floor, such as carpeted areas.
- In addition, Bases and Frames are convenient in areas where it is important to be able to mop or clean areas where the floor mat is located.
- The Mat Bases and Frames come in a wide assortment of sizes for greater flexibility in meeting your specific application requirements.

Trim Tack® Tacky Rollers From MARKEL

Removes Contaminating Particles From Floors, Walls, Ceilings, Tabletops and Many Other Surfaces

- Trim Tack® Tacky Rollers are as simple to use as a common paint roller. Each replaceable cartridge consists of a roll of adhesive coated substrate perforated into removable sheets similar to those of a Trim Tack® adhesive floor mat.
- Simply roll the area to be cleaned as if you were applying paint.
- When the roll becomes too soiled to pick up any more contaminants, simply peel off the top layer at perforations to expose a clean layer.

AVAILABLE IN TWO ADHESIVE MATERIALS

- **FOAM ROLLER**
Made from a poly film/foam laminate which conforms to slightly irregular surfaces.
- **POLY ROLLER**
LDPE film on a plastic, non-contaminating core.
- Roller handles (sold separately) are available in 9" and 18" sizes.
- Adjustable 3'-6' and 6'-12' extension poles are available.
