

# Compatibility of Air Delivery Units and Headtops

The 3M™ Speedglas™ Welding Helmet Series 9100 features breathing tubes with QRS connection (Quick Release Swivel), which enables one-handed connection and release. The SG-30W breathing tube comes standard with most 3M™ Adflo™ PAPR HE Systems and 3M™ Speedglas™ Fresh-air III Supplied Air Systems.

The SG-40W breathing tube is an option for more demanding conditions and also comes standard with complete systems that include the 3M™ Speedglas™ Welding Helmet 9100 MP. The SG-50W breathing tube is standard on the 3M™ Adflo™ PAPR HE/OV-AG systems.

\* The 3M™ Speedglas™ Breathing Tube SG-50W is required when used with 3M™ Adflo™ PAPR with HE filter and OV/AG cartridge and 3M™ Speedglas™ Welding Helmets 9100-Air or 9100 MP. It is not NIOSH approved with 3M™ Supplied Air Valves V-Series.
